| 1000 Series | \$299.00* | 2000 Series | \$299.00* |
| 3000 Series | \$395.00* | 4000 Series | \$522.00* |

Did you know that the average Allison Transmission filled with automatic transmission fluid should be serviced every 12 months *regardless* of how few miles were driven? The use of proper synthetic fluids can extended your service interval out to as much as 60 months!

Transmission life can be cut dramatically by lack of proper service. Have your Allison Transmission serviced by our factory trained and certified professionals! Service includes TranSynd™ synthetic fluid, Genuine Allison filter kits, labor and hazmat charges.

TranSynd™
