Quality Remanufactured Allison Transmissions

VALLEY POWER SYSTEMS IS YOUR TRANSMISSION SPECIALIST!

Not only is Valley your authorized Allison Transmission distributor, but we also offer remanufactured Allison transmissions under our own ValleyBuilt™ brand. These are OEM quality remanufactured Allison transmissions for both on-highway and C&I machinery applications.

- ◆ ValleyBuilt™ transmissions are remanufactured at our state-of-the-art overhaul facility by our highly skilled Allison transmission experts using only Genuine Allison parts and fluids.
- ◆ Every transmission is dyno tested with a load to simulate real conditions to ensure proper operation.
- ◆ We offer a full range of remanufactured models, including the AT, MT, HT, MD, HD, B400, B500 and the 1000/2000 Series.

We stand behind our work with a standard two-year warranty for on-highway, refuse and transit applications, and a six-month warranty for construction and industrial machinery applications.

**Remanufactured by experts in
Allison transmissions.**

For more information, contact your Valley sales representative, nearest Valley facility or call us at (800) 924-4265 and ask for a ValleyBuilt™ specialist.
