

MACK E7 E-TECH MODELS

Reviva can provide a long block engine to be used with the following horsepower for all MR, RD, DM, and CH truck models:

- E7-310/330
- E7-330/350
- E7-355/380
- E7-350 (1800 rpm)
- E7-400 (1800 rpm)
- E7-454

APPLICATIONS:

- 1998-1999, Round Oil Cooler
- 2000-2002, Plate Oil Cooler

ABOUT THE REVIVA MANUFACTURING PROCESS:

- Reviva replaces 100% of pistons, rings, bearings, bushings, gaskets and seals.
- Reviva uses OEM or equivalent pistons, rings, bearings, valves, and gaskets to ensure longevity of the engine.
- All heads get new valves and are vacuum tested to ensure the quality of the valve job. All heads are pressure tested and upgraded to the latest style valve seal.
- Reviva grinds 100% of camshafts' lobes.
- All connecting rods are de-magnetized.
- Core plugs are 100% stainless steel to avoid corrosion.
- Blocks, heads and crankshafts are 100% magnaflux tested to avoid cracked components.
- Connecting rods have new bushings installed and both large and small end are remachined to OEM specifications.
- Crankshaft is checked for size, reground, if necessary, and polished to OEM specifications.

Mack E7 E-Tech

LONG BLOCK INCLUDES:
