

POWER GENERATION FIELD SERVICE

Valley Power Services is a factory authorized power solutions provider for a number of the largest and most recognized engine, transmission and equipment manufacturers in the world.

Family owned and operated, Valley has an experienced team of knowledgeable professionals whose focus is to take care of the customer. Whether it's trucking, transit, construction and industrial, agriculture, mining, marine or power generation, you can count on the Valley team to provide a solution for your particular power needs.

Valley's team understands the unique requirements of our customers and end users. We offer 24-hour emergency service in addition to scheduled maintenance programs custom designed to fit your needs. We will analyze and assist owners/operators of diesel powered engines in providing only Best Available Control Technologies (BACT). Assistance locating and applying for state and federal grants is also available. Valley is dedicated to giving our customers the highest level of service in the industry.

Call us for more details on custom maintenance programs, service, repairs, parts and rentals, all designed to keep your equipment reliable, operating properly and ready when you need it.
